Experience

Software Developer, NitroSecurity, Inc./McAfee, Inc./Intel Corp.
Idaho Falls, ID --- Mar. 2010 – Present

Contributed to the development of the UI for one of the top five Security Information and Event Management (SIEM) products in the Gardner Magic Quadrant.

Designed what the user views and how they will interact with the company's various products through the web-based GUI through Actionscript using Adobe Flash Builder.

Worked in conjunction with a middleware team and a hardware team to provide proper functionality to the user.

Aided in the design and development of the Advanced Correlation Engine product that allowed customers to correlate events that are collected from their network by the SIEM and has become one of the company's top selling products.

Resolved issues from a Quality Assurance team in a timely manner with bugs being logged to Bugzilla.

Corey Walker

(214) 868-2553

corey.walker226@gmail.com

Involved in the design and development of the high availability feature for the SIEM's Event Receiver product that is a top choice for some of the company's largest customers.

Designed and developed a quick search for the system navigation to help customers quickly find one device within a large amount of configured devices.

Helped in the design and development of a multi-display option for the system navigation to help customers have different ways to view and navigate their system.

Lead developer on an Indicator of Compromise feature that was completed in a short time period for McAfee's security conference and received rave reviews from customer who attended the conference.

Provided support to my scrum team as a Certified Scrum Master, helping the team maintain focus on Agile principles.

Represented my scrum team during backlog grooming, using VersionOne, and other product or process meetings needed for team input.

Acted as a Product Owner for existing UI, in Actionscript, during transition of the product through a full technology stack overhaul and re-architecture, ramping up on JavaScript, HTML, CSS, jQuery, and Java.

Participated in a transition through a change from Waterfall to Scrum/Agile development methodology.

Led a SIEM Tiger Team of 12 engineers in sustaining efforts with a mission to improve the quality of the product and engineering processes resulting in several company process changes, product quality improvements, and over customer experience improvement.

Software Developer I, AMX International, Inc.
Rexburg, ID --- Aug. 2007 – Mar. 2010

Developed product application, AMX Utiligy, with NER business function creation, UBE report writing, subform development, JD Edwards application & report writing teaching, and code migration from RPG to EnterpriseOne.

Worked with BI Publisher including creating Purchase Order, Invoice, Mass mailing letters, and Check templates with XML, Business Services, and HTTP/RSS feeds.

Received personal certifications:

    Oracle CRM On Demand R15 Developer Champion

    Oracle CRM On Demand R15 Analytics Developer Implementation Champion

    Oracle CRM On Demand R15 Administrator Consultant Implementation Champion

Worked with several notable clients (Including, but not limited to Clif Bar & Co., Columbia Sportswear Company, American Licorice Company, etc.) on various successful transition projects.

Web Administrator, City of Rexburg (Internship)
Rexburg, ID --- Jan. 2006 – Jan. 2007

Managed, designed, developed, and maintained all of City of Rexburg's websites.

Maintained and trouble shooted computer workstations.

Participated in the progression and maintenance of the network.

Participated in projects related to the progression and improvement of City of Rexburg.

Assisted IT Manager in most day to day IT activities.

Participated in the development of city-run community events.

corey.walker226@gmail.com

Doubled registration of marathon & triathlon participants through website creation.

Volunteered time to help run events.

Education

Nova Southeastern University – Florida
Fort Lauderdale, FL. --- August 2015

Master of Science in Information Technology w/concentration on Information Technology Management

Brigham Young University – Idaho
Rexburg, ID --- July 2007

Bachelor of Science in Computer Information Technology w/emphasis on Business Management & Family Studies

Certifications/Organizations

Certified Scrum Master from Scrum Alliance

Member of local Project Management Institute chapter

Service Opportunities

Computer Science Program Advisory Committee Member
Stevens-Henager College --- May 2015 - Present

Represented Intel as an advisory committee member. Gave advice on the direction of the computer science market and programming careers. Read syllabuses and reviewed textbooks to help the college improve their curriculum and offerings to students.

LDS Church - Billings, MT
Representative --- Apr. 1999 – 2001

Trained new representatives in policies and procedures for voluntary church service opportunities that served people in many communities throughout Montana and Wyoming. Had the privilege of talking to and teaching many wonderful people, about the LDS church and doing community service.
